

UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF WASHINGTON

FEDERAL TRADE COMMISSION,

Plaintiff,

v.

AMAZON.COM, INC.,

Defendant.

Case No. 2:14-cv-01038-JCC

**DECLARATION OF PATRICK
EAGAN-VAN METER**

I, Patrick Eagan-Van Meter, pursuant to 28 U.S.C. § 1746, have personal knowledge of the facts set forth below. If called as a witness, I could and would testify competently as follows:

1. I am a citizen of the United States and over the age of eighteen (18) years old. I am employed as a program specialist with the Federal Trade Commission (“FTC”) in the Division of Financial Practices. My office address is 600 Pennsylvania Avenue, N.W., CC-10232, Washington, D.C., 20580.

2. I began working at the FTC in August of 2011. My responsibilities include investigating suspected violations of consumer protection laws. In the normal course of carrying out my investigative responsibilities, I regularly use electronic databases, mobile devices, and software to capture screenshots from mobile devices and the Internet.

3. On or around March 2014, I was assigned as document custodian to the investigation of Amazon.com, Inc. (“Amazon”). As part of my responsibilities on the FTC’s investigation of Amazon, I used Amazon’s Kindle Fire device to download apps from the Amazon Appstore, incur in-app charges through those apps, and capture screenshots of the app download and in-app charge processes. I also reviewed certain documents produced by Amazon, including in preparing this declaration.

DECLARATION OF PATRICK EAGAN-VAN METER
Case No. 2:14-cv-01038-JCC

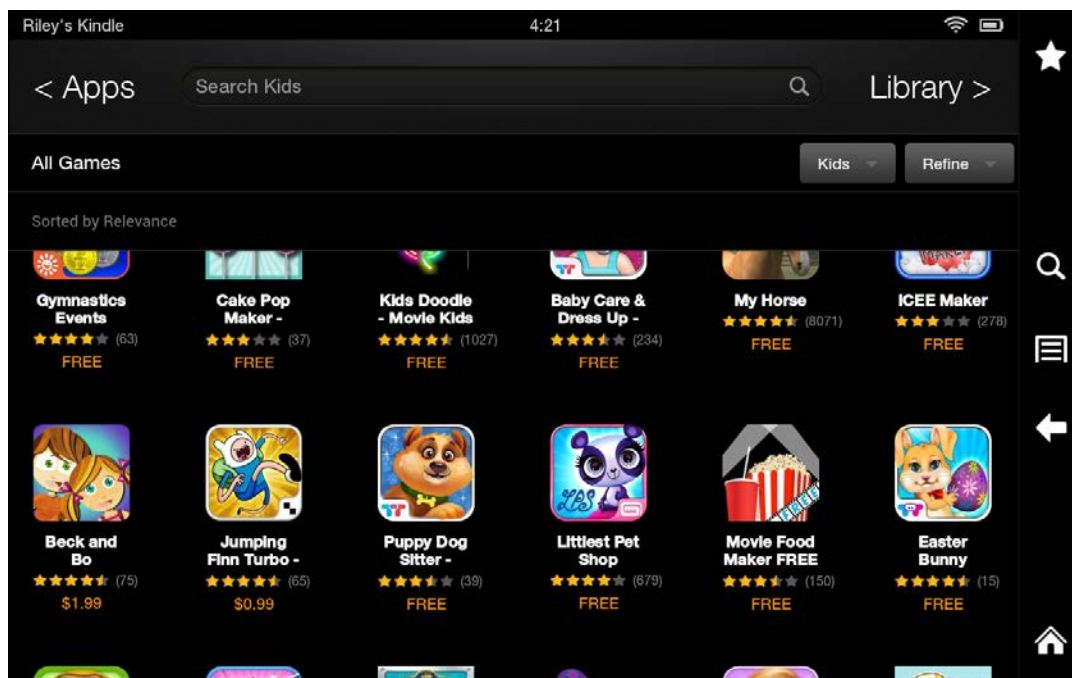

Federal Trade Commission
600 Pennsylvania Avenue N.W.
Washington, DC 20580
(202) 326-3231

4. Counsel for the FTC asked me to summarize the app installation process and in-app charge processes.

5. For purposes of this declaration, unless otherwise noted, the relevant time period is November 15, 2011 through June 3, 2014. Also, unless otherwise noted, I created the screenshots included in this declaration by using a tool called “Droid@screen” to take screenshots. I saved each of these screenshots as a PNG file. Finally, I compared the screenshots that I took with the device screens that I had seen and verified that the screenshots accurately reflected the device screens that I encountered.

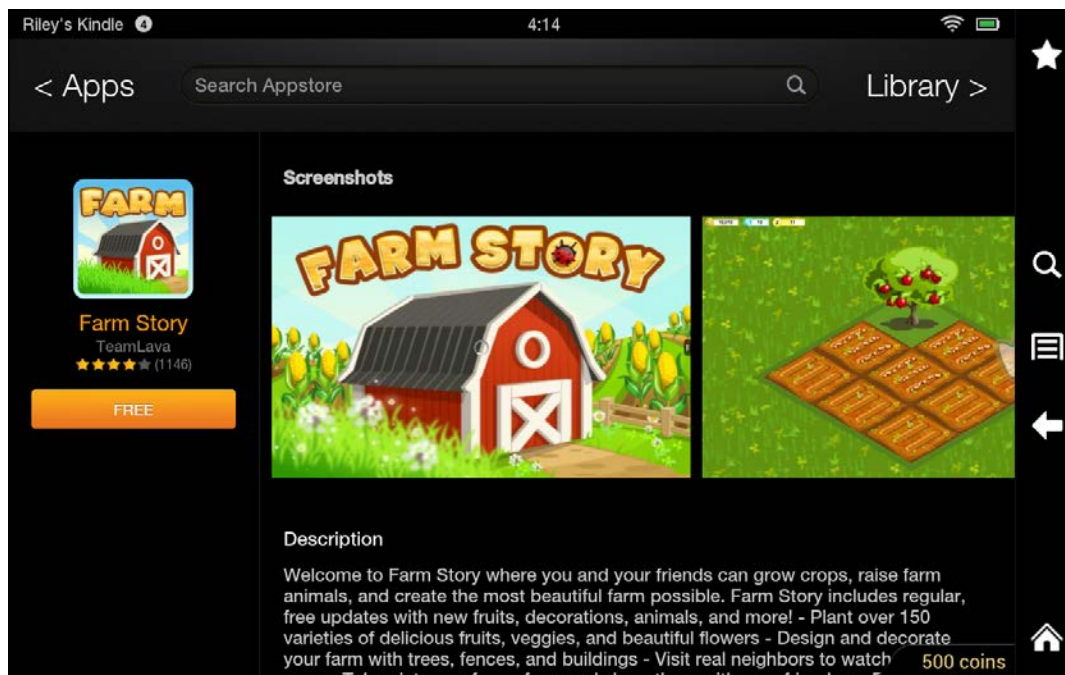

Installing an App from the Amazon Appstore

6. To install an app, users must locate that app in the Amazon Appstore by searching for it by keyword or browsing the categories in the Amazon Appstore. Amazon displayed app search results in rows, with the app icon, name of the app, a user rating, and the price of the app. Answer ¶ 13. An example screenshot, captured by former FTC employee Andrew Hasty,¹ of a Kindle Fire while searching for the keyword “kids” is below:

¹ See **Exhibit A**, Declaration of Andrew Hasty.

7. Users can install apps from the Amazon Appstore from an app's detail page. Dkt. 15 ¶¶ 14, 16. An example of an app detail page from before June 2013 is below. Other examples are attached hereto as **Exhibit B**.²

8. On each app's detail page, there has been a button labeled either "FREE" or a specific dollar amount (the "price button"). Dkt. 15 ¶ 16. The price button is located in a header that appears at the top of the screen if the device is held vertically, or in a column on the left-hand side of the screen if the device is held horizontally (the "installation section").

9. If an app has been free to install, the price button has said "FREE," regardless of whether the app contained in-app charges. *See id.* If the app cost a specific dollar amount to install, the price button has listed that specific dollar amount, regardless of whether the app contained in-app charges. *Id.*

² Screenshots in this exhibit include captures done by former FTC employee Andrew Hasty. *See* Exhibit A.

1 10. The price button has not contained any information about in-app charges,
2 regardless of whether the app contained in-app charges. *Id.*; Exhibit 188 at Amazon_00008749.

3 11. Adjacent to the price button, in the installation section, Amazon has displayed
4 other information relating to the app, including the name of the app, the name of the app
5 developer, and the app's rating. Dkt. 15 ¶ 14.

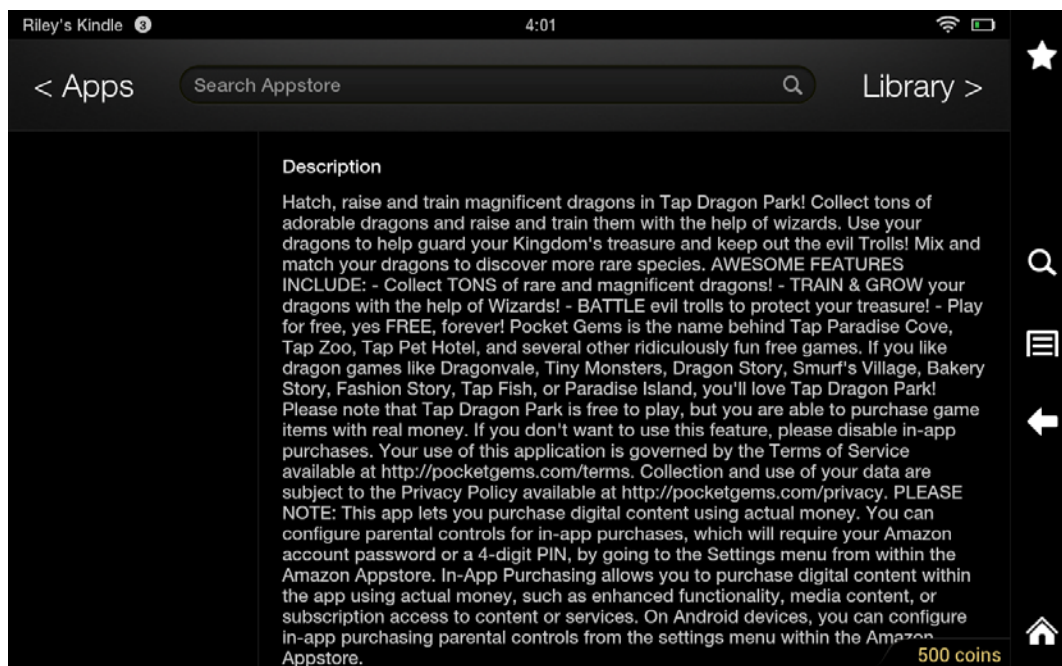

6 12. Amazon has not displayed any information about in-app charges in the
7 installation section adjacent to the price button. *Id.* ¶¶ 14-15.

8 13. In addition to the price button and the information displayed adjacent to the price
9 button in the installation section, an app's detail page has included content such as gameplay
10 screenshots and an app description. *Id.* 15 ¶ 14. Screenshots appear below the installation section
11 if the device is held vertically and to the right of the installation section if the device is held
12 horizontally.

13 14. An app's detail page has included content (including portions of the developer-
14 provided app description) that has appeared "below the fold"—that is, visible only if a user
15 scrolls down the page or expands the content by clicking on "Read More" or "See All." *Id.* 15 ¶
16 14; Exhibit 188 at Amazon_00008763-4, Amazon_00008794-5, Amazon_00008819-20,
Amazon_00008828-9, Amazon_00008841-2, Amazon_00008868-9.

17 15. App detail pages within the Amazon Appstore have included a note at the end of
18 the app description that mentioned in-app charges (the "Note"). *Id.* 15 ¶¶ 14 – 15. An example of
19 an app detail page,³ as captured by former FTC employee Andrew Hasty, from before June 2013
20 that has been scrolled to display the Note is below:

21
22
23
24
25
26 ³ See Exhibit A, Declaration of Andrew Hasty.

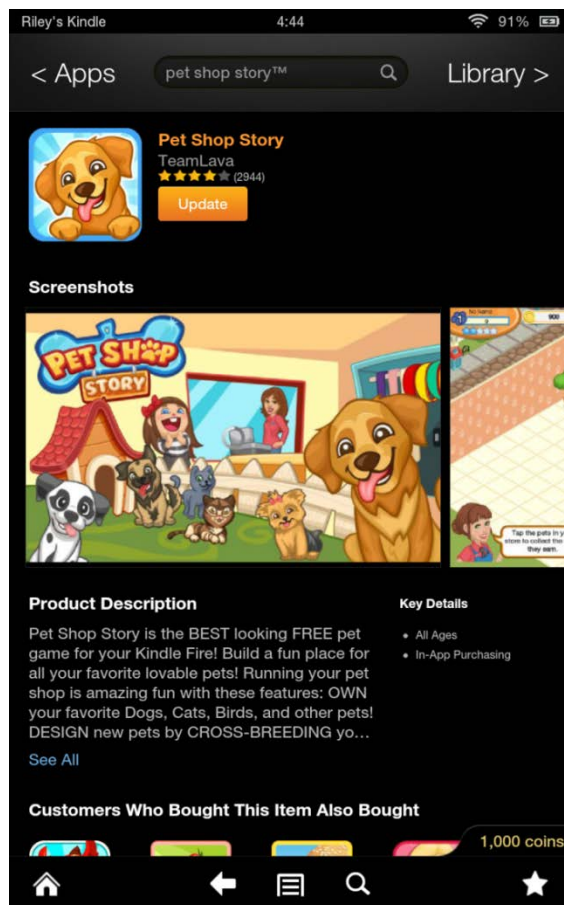

16. The Note has appeared in the same font and color as the app description. Exhibit 188 at Amazon_00008749, Amazon_00008764, Amazon_00008778, Amazon_00008795, Amazon_00008820, Amazon_00008829, Amazon_00008842, Amazon_00008869.

17. Screenshots of the Note, which has not stated that consumers can incur in-app charges without entry of a password or Personal Identification Number (PIN), include Exhibit 188 at Amazon_00008749, Amazon_00008764, Amazon_00008778, Amazon_00008795, Amazon_00008820, Amazon_00008829, Amazon_00008842, Amazon_00008869.

18. Screenshots of the Note, which has not stated that consumers must change their device settings to prevent children from incurring in-app charges without entry of a password or a PIN, include Exhibit 188 at Amazon_00008749-50, Amazon_00008764, Amazon_00008778, Amazon_00008795, Amazon_00008820, Amazon_00008829, Amazon_00008842, Amazon_00008869.

19. In June 2013, below the installation section and below the screenshots, Amazon began including a bulleted list of items on the right-hand side of an app's detail page under the title "Key Details" (the "badge"). Dkt. 15 ¶ 15. Amazon did not make this change on its first-

1 generation Kindle Fire device, e.g., Exhibit 188 at Amazon_00008749. An example of an app
 2 detail page including a badge follows:

19 20. The badge has included items such as “All Ages” or “In-App Purchasing” or
 20 “Game Circle” or “Guidance Suggested” or “High Bandwidth” or “Mature.” Exhibit 188 at
 21 Amazon_00008763, Amazon_00008777, Amazon_00008794, Amazon_00008828,
 22 Amazon_00008841, Amazon_00008868.

23 21. The words “In-App Purchasing,” if they appear in the badge, appear in smaller
 24 font than other text on the page, including the app description.

25
 26
 DECLARATION OF PATRICK EAGAN-VAN METER
 Case No. 2:14-cv-01038-JCC

Federal Trade Commission
 600 Pennsylvania Avenue N.W.
 Washington, DC 20580
 (202) 326-3231

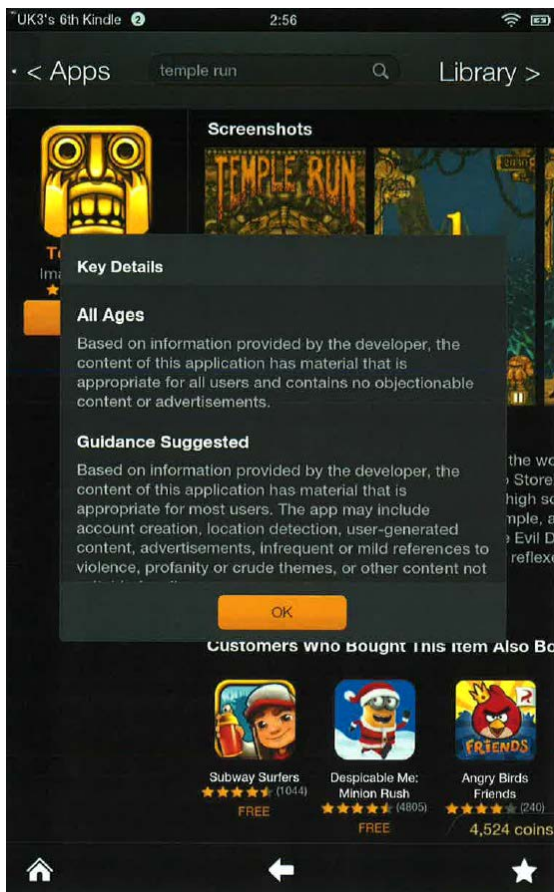

1 22. As initially displayed on an app's detail page, the badge has not defined "In-App
2 Purchasing." Exhibit 188 at Amazon_00008763, Amazon_00008777, Amazon_00008794,
3 Amazon_00008828, Amazon_00008841, Amazon_00008868.

4 23. The badge has appeared in the same color as other text on the app's detail page,
5 including the app description. Exhibit 188 at Amazon_00008763, Amazon_00008777,
6 Amazon_00008794, Amazon_00008828, Amazon_00008841, Amazon_00008868.

7 24. The badge has not appeared in the same color or format as other hyperlinked text
8 on the app's detail page. Ex. 188 at Amazon_00008763, Amazon_00008777,
9 Amazon_00008794, Amazon_00008828, Amazon_00008841, Amazon_00008868.

10 25. If a consumer were to click the badge, a popup would have appeared (the "badge
11 popup"). Ex. 188 at Amazon_00008780-1, Amazon_00008796-7, Amazon_00008830-1,
12 Amazon_00008843-4, Amazon_00008870-1. An example of the badge popup⁴ as it first appears
13 follows:
14

19
20
21
22
23
24
25

26 ⁴ Screenshot produced by Amazon. Ex. 188 at Amazon_00008796.

26. The badge popup includes an expanded description of the “Key Details” that can appear in the badge, including:

- Age ratings (e.g., “All Ages”, “Guidance Suggested”);
- “In-App Purchasing”; and
- “High Bandwidth Required”.

Exhibit 188 at Amazon_00008780-1, Amazon_00008796-7, Amazon_00008830-1, Amazon_00008843-4, Amazon_00008870-1.

27. The section of the badge popup related to “In-App Purchasing” has appeared below the fold, such that a consumer viewing the badge popup would have to scroll to see it.

Exhibit 188 at Amazon_00008780-1, Amazon_00008796-7, Amazon_00008830-1,

Amazon_00008843-4, Amazon_00008870-1. An example of a badge popup⁵ scrolled to the section about “In-App Purchasing” follows:

28. Screenshots of the badge popup, which has not stated that consumers can incur in-app charges without entry of any account holder information, such as a password or Personal Identification Number (PIN), include Exhibit 188 at Amazon_00008780-1, Amazon_00008796-7, Amazon_00008830-1, Amazon_00008843-4, Amazon_00008870-1. The badge popup has not stated that consumers must change their device settings to prevent children from incurring in-app charges without entry of a password or a Personal Identification Number (PIN). Exhibit 188 at

⁵ Screenshot produced by Amazon. Exhibit 188 at Amazon_00008797.

1 Amazon_00008780-1, Amazon_00008796-7, Amazon_00008830-1, Amazon_00008843-4,
2 Amazon_00008870-1.

3 29. On the app detail page, Amazon has not disclosed to consumers that they can
4 incur in-app charges without entry of any account holder information, such as a password or
5 PIN. Exhibit 188 Amazon_00008749-50, Amazon_00008763-5, Amazon_00008777-9,
6 Amazon_00008794-5, Amazon_00008819-21, Amazon_00008828-9, Amazon_00008841-2,
7 Amazon_00008868-9.

8 30. To install an app, consumers have not had to review all content on an app's detail
9 page. Exhibit 188 at Amazon_00008763, Amazon_00008777, Amazon_00008794,
10 Amazon_00008819, Amazon_00008868.

11 31. To install an app, consumers have not had to scroll down and read the entirety of
12 an app's detail page. Exhibit 188 at Amazon_00008763, Amazon_00008777,
13 Amazon_00008794, Amazon_00008819, Amazon_00008868.

14 32. To install an app, consumers have not had to click "Read More" or "See All" on
15 an app's detail page. Exhibit 188 at Amazon_00008763, Amazon_00008777,
16 Amazon_00008794, Amazon_00008819, Amazon_00008868.

17 33. To install an app, consumers have not had to click the badge. Exhibit 188 at
18 Amazon_00008763, Amazon_00008777, Amazon_00008794, Amazon_00008868.

19 34. To install an app, consumers have had to press the price button. Dkt. 15 ¶ 16. If a
20 consumer pressed the price button, Amazon would have replaced the text on the button with the
21 words "Get App." *Id.* To continue app installation, consumers have had to press the price button
22 a second time.

23 35. Before June 2013, as detailed in paragraphs 6 to 18 above, consumers could have
24 installed apps from the Amazon Appstore without any information about in-app charges being
25 visible on consumers' screens.

26
DECLARATION OF PATRICK EAGAN-VAN METER
Case No. 2:14-cv-01038-JCC

Federal Trade Commission
600 Pennsylvania Avenue N.W.
Washington, DC 20580
(202) 326-3231

36. After June 2013, as detailed in paragraphs 19 to 34 above, consumers could have installed apps from the Amazon Appstore without any information about in-app charges becoming visible on consumers' screens, apart from the words "In-App Purchasing."

Incurring In-App Charges

37. Many children's apps from the Amazon Appstore have featured virtual items acquirable for virtual currency, with no real monetary cost. Dkt. 15 ¶¶ 24 – 26. Examples of virtual in-app items paid for with virtual currency include a sea turtle, a hamster, and gold coins.

38. Many of children's apps from the Amazon Appstore have featured virtual items that cost real money to acquire. Dkt. 15 ¶¶ 24 – 26. Examples of virtual in-app items billed to the account holder's Amazon account include a boatload of doughnuts, a can of stars, and bars of gold.

39. If a user has engaged in an activity associated with an in-app charge (e.g., clicking a button to acquire virtual items for use in a game), Amazon has displayed a popup containing the amount of the charge (the "charge popup"). Dkt. 15 ¶ 18.

40. The charge popup contained a button labeled "Get Item" (the "get button") that users had to press to obtain the in-app item. Dkt. 15 ¶ 18.

41. Until March 2012, Amazon's default in-app charge process was such that if a user pressed the get button, Amazon billed the charge to the account holder. Dkt. 15 ¶ 18-20.

42. In March 2012, Amazon began requiring password entry to confirm individual in-app charges of at least \$20. Dkt. 15 ¶ 20.

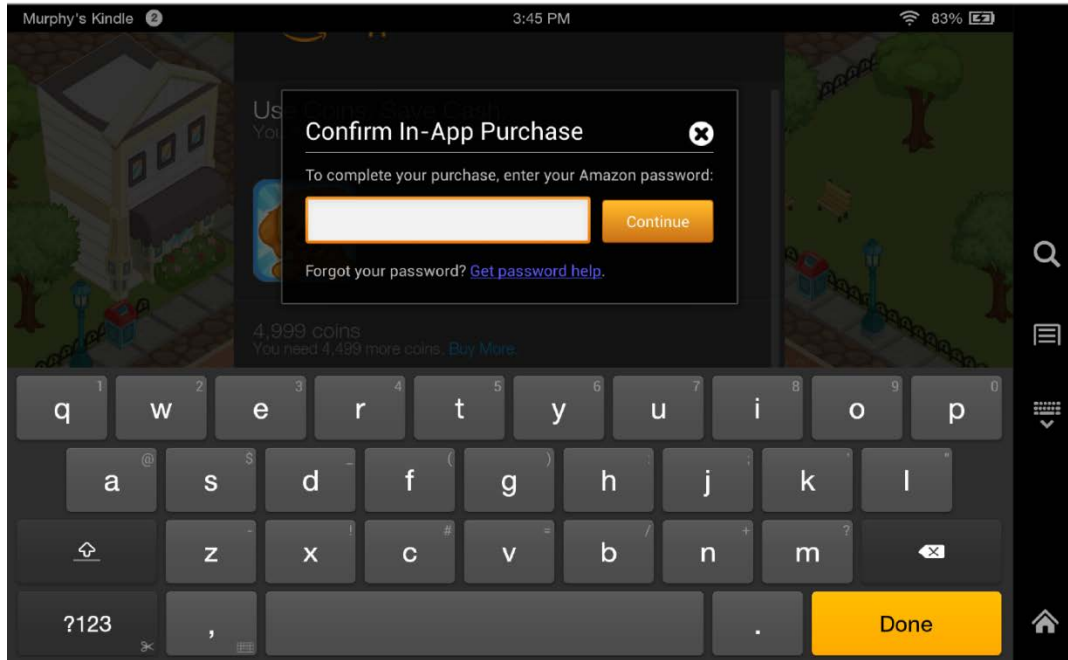

43. To my knowledge, Amazon did not add any other password requirements until February 2013.

44. Between February and May 2013, Amazon modified the occasions on which password prompts would appear before an in-app charge could be incurred multiple times. Dkt. 15 ¶ 21.

DECLARATION OF PATRICK EAGAN-VAN METER
Case No. 2:14-cv-01038-JCC

Federal Trade Commission
600 Pennsylvania Avenue N.W.
Washington, DC 20580
(202) 326-3231

45. The caption of the password prompts described in paragraph 42 often read “Confirm In-App Purchase.” Dkt. 15 ¶ 22; Ex. 188 at Amazon_00008783, Amazon_00008817, Amazon_00008836. An example of a password prompt that Amazon displayed before June 2014 is below. Other examples are attached as **Exhibit C**.

46. Password entry in response to the prompts described in paragraph 45 has opened a billing window ranging from fifteen minutes to an hour. Dkt. 15 ¶ 21.

47. In or around May 2013, Amazon began displaying a password prompt for the first in-app charge incurred on a device (other than its first-generation devices). An example of the password prompt⁶ that Amazon displayed beginning in or around May 2013 is below.

⁶ Screenshot produced by Amazon. Exhibit 188 at Amazon 00008833.

48. Password entry in response to the prompt described in paragraph 47 has allowed subsequent in-app charges without password entry.

49. Amazon continued to bill for certain in-app charges without requiring password entry, including in-app charges within the billing window described in paragraph 46 and any purchases less than \$20. Dkt. 15 ¶¶ 20-21.

50. In June 2014, shortly before the FTC filed its lawsuit, Amazon began presenting users of its newer devices (other than first-generation Kindle Fire devices) who had not previously incurred an in-app charge with a prompt asking them to choose whether to be prompted for a password for subsequent in-app charges. Exhibit 188 at Amazon_00008799. A screenshot of the prompt added in June 2014 is below:

**DECLARATION OF ANDREW E. HASTY
PURSUANT TO 28 U.S.C. § 1746**

I, Andrew E. Hasty, hereby state that I have personal knowledge of the facts set forth below and am competent to testify about them. If called as a witness, I could and would testify as follows:

1. My name is Andrew E. Hasty. I am over the age of eighteen years old. I am employed by the Federal Trade Commission ("FTC") as a program specialist in the FTC's Office of Technology Research and Investigation in Washington, D.C.

2. I began working at the FTC in August 2008. As part of my work, I research and investigate persons and entities that may be violating the FTC Act and other federal statutes enforced by the Commission. In the normal course of my investigative and research duties, I frequently use different search engines and review public websites and app stores to obtain information about companies, individuals, and mobile applications. I also use a variety of other computer-based investigative tools to carry out FTC duties, including capturing screenshots on computers and mobile devices.

3. On April 18, 2013, I navigated to the Amazon app store on a Kindle Fire, selected to view the page for "Games," and then selected "All Games." On the resulting screen, I tapped "All Categories" and then the "Kids" category. This caused a list of apps to be displayed on the Kindle Fire's screen. From this list of apps, I tapped on "Baby Care & Dress Up." This displayed a details page for the app, including a button marked "FREE." From the details page, I tapped on the button marked "FREE" and then tapped on "Get App." Once the app finished installing, I tapped on the button marked "Open." This caused the app to launch. After the app finished launching, I returned to the app's details page in the Kindle Fire's app store. In order to document the device screens that I encountered, I used a debugging tool called ddms.bat to take

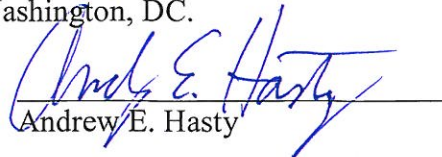

screenshots at each step described above. I saved each of these screenshots as a PNG file.

Finally, I compared the screenshots that I took with the device screens that I had seen and verified that the screenshots accurately reflected the device screens that I encountered. Attached as Exhibit A is a true and correct copy of screenshots from this set of captures.

4. On April 18, 2013, I navigated to the Amazon app store on a Kindle Fire and searched for apps using the query "kids' games." I tapped on the first result, an app called "Animal Hide and Seek: Free Hidden Object Game for Kids," which took me to the app's details page. The details page included a button labeled "Free." I pressed the button labeled "Free" and then pressed the button labeled "Get App." This caused the app to be downloaded to the Kindle Fire. I launched the app when it finished downloading to ensure the app downloaded successfully and then navigated back to the app's details page in the app store. In order to document the device screens that I encountered, I used a debugging tool called ddms.bat to take screenshots at each step described above. I saved each of these screenshots as a PNG file. Finally, I compared the screenshots that I took with the device screens that I had seen and verified that the screenshots accurately reflected the device screens that I encountered. Attached as Exhibit B is a true and correct copy of screenshots from this set of captures.

Pursuant to 28 U.S.C. § 1746, I declare under penalty of perjury that the foregoing is true and correct.

Executed this 12th day of May, 2015, in Washington, DC.

Description

Dress, Feed & Bathe your Baby - Have a Tea Party & Put your Baby to Bed! Play Mommy & Care for Adorable Babies, Hundreds of Outfits & Loads of Fun! Kids will Learn Responsibility - Don't Let the Babies Cry! Meet four adorable babies who can't wait to be dressed, fed, played with, bathed, read a bedtime story and put to sleep. This is the most fantastic mommy's helper game ever! Dress Up Time! Dress up your baby in style: choose from dozens of hairstyles, outfits, dresses, jeans, silly pacifiers, accessories and toys! Feed Me! Your baby is hungry, it's time to feed her. Prepare the bottle and feed your baby her cereal and veggies. Tea Party! Surrounded by her dolls in her backyard, your baby is ready to eat cookies and drink tea. Mix up the tea and add sugar cubes. Don't forget to give her dolls drinks too. Bath Time! Get out the shampoo and soap, your baby is dirty. Wipe her clean with a sponge. Make the bubbles pop and play with her bath toys. Rinse her off with water when she's all clean. Time for Bed! After all the fun she had, your baby is getting sleepy. She wants a bottle and a bedtime story. All tucked in and ready for bed, choose from 3 books to read to her. PLEASE NOTE: This app lets you purchase digital content using actual money. You can configure parental controls for in-app purchases, which will require your Amazon account password or a 4-digit PIN, by going to the Settings menu from within the Amazon Appstore.

Animal Hide and Seek: Free Hidden Object Game for Kids

Absolutist Ltd
★★★★★ (123)

FREE

Screenshots

Description

Animal Hide and Seek is an absolutely free hidden object game for kids. Even the youngest children will get involved into the magic world of animation. The game has simple mechanics and doesn't require any language skills. This is a great tool that will help your kids to improve their creative thinking, dedication and imagination while kind and cheerful characters will make your child happy for hours. There are 12 African landscapes in the game and every time you start a new game, the animals hide in different locations. PLEASE NOTE: This app lets you purchase digital content using actual money. You can configure parental controls for in-app purchases, which will require your Amazon account password or a 4-digit PIN, by going to the Settings menu from within the Amazon
